# Canada 2020 Healthcare Summit
## Creating a **Sustainable Healthcare System** for Canada
November 30 - December 1, 2015 | Chateau Laurier Hotel, Ottawa

| | |
|---|---|
| **Monday November 30** | **Public Event**<br><br>Private Reception for Conference Delegates |
| **Tuesday December 1** | Welcoming Remarks<br><br>**Scene Setter: The Consequences of Inter-Generational Imbalance**<br>This presentation will provide the conference attendees with a fiscal and demographic context for the next decade in Canada.<br><br>**Opening Panel: "Disruptive Delivery"**<br>As we struggle to manage a complex system of healthcare in Canada, new and sometimes controversial new models are emerging. The panel will discuss and debate the merits and short-comings of what is increasingly becoming a mix of public and private platforms.<br><br>**Panel 2: "Disruptive Technology"**<br>From glucose meters implanted in a contact lens, to electronic medical records, to breakthrough medical devices, disruptive technology is changing the way healthcare professionals diagnose and treat patients; in addition, these new tools give individuals the ability to increasingly manage their own health - and all of this is happening at a pace we have never seen before. This panel will discuss the healthcare system's ability to adopt and adjust to these emerging, disruptive technologies and discuss how they are impacting a system under pressure.<br><br>**Networking Luncehon**<br><br>**Panel 3 : We're Not Alone: How other jurisdictions manage change**<br>The panelists speak to trends in healthcare delivery in other OECD countries that are facing the same fiscal constraints as we are in Canada.<br><br>**Closing Panel: Changing the Conversation**<br>How can we redefine the public conversation and change the dialogue on what it means to have health care sustainability? |
